## STATELINE PROPERTY BONDED. Rocky Mountain Group Tied Up By

Willard F. Snyder returned from tateline yesterday with the information that he had succeeded in securing a lease and bond on the Rocky Mountain group of six claims, located about three-fourths of a mile north of the Johnny, for a peried of sighteen months, and before leaving he put men at work on the ground. The property belonged to George A. Rice and others. months, and before leaving he put men at work on the ground. The property belonged to George A. Rice and others, and embraces the first claims on which mineral was discovered in the Stateline district, something like five years are district, something like five years are Mr. Snyder reports that four ledges traverse the claims and that some very remarkable values have been secured in some of them. Over 400 feet of development work has been done, but Mr. Snyder aways it has not been sufficiently concentrated to bring out the work of the claims. He proposes to direct his efforta to a large vein which crops out along the eastern side of the claims—a ledge which varies in width from twenty to fifty feet—and says before the scinter is over he expects to show up a fine milling proposition. The figure at which he got hold of the property Mr. Snyder would not divulge.

## STATELINE OPERATIONS.

### Development Being Pushed at the Johnny Mine.

A private letter from Stateline, re-ceived yesterday, brought the informa-tion that operations are being pushed at the Johnny mine under the new management. The statement was made in the communication that a four-foot vain of ore at a depth of seventy-five feet in the shaft will average about 189 to the aon in gold and silver, while there is some ore that will go much the purpose of making an inspection. The mill is being prepared to start up and it is thought the wheels will be turning within the next ten days. The wifter reported considerable activity around the Burro, Ophir and Aggie D. The Galena Ore Struck In the Shaft at 100 Feet.

Manager J. S. Free and W. F. Smith, one of the directors, returned yesterday from a week's trip to the Eutonia mine in the Erricson district. They came in loaded with some fine samplex of ore. While the gentlemen pretend not to be more than ordinarily enthusiastic over conditions at the mine, they cannot be done and the fact that they are extremely well oleased with the developments. Eving made there. Mr. Free did not expect to return until he brought in a deplotable condition between the mine and the railroad, so he decided to postpote any shipment of ore with him, but the respect to return until the brought in a deplotable of the inline within the same and the railroad, so he decided to postpote any shipments made there are more favorable. It is said by several who have visited the inline within the last week that every sexcavation shows up ore and lors of it. Just before Messrs, Smith and Stree lett, a fine body of galena ore was encountered in the bottom of the shift at a depth of 100 feet, which is very fine bigh-grade maierial.
